HSC Communication Update

HSC Management Group

HSC Management Group Officers Elected

The following individuals were elected for this year's HSC Management Group:

President - Wade Hackbarth – Western Technical College
Vice President – John Greany – UW-La Crosse
Recorder – Shari Borreson – Western Technical College

They will be meeting the 2nd Thursday of each month from 3:30-5:00 pm.

Swipe Card Update

All applicable doors have been upgraded to the swipe card system. There are still a few doors that will be receiving a new 'plate' for cosmetic purposes and will not impact the use of the swipe card pad.

All faculty and staff who currently have a 'white swipe card' (for access to HSC building after hours) should have their organizational ID scanned at the information desk by Ann Peterson. **The previous "white" cards are no longer active.**

HSC Research Team

Several years ago a Research Team had been formed to develop protocols for research lab use, lab safety, etc. This committee had been in remission for a few years and has now been reactivated. They had their first meeting on August 23, and Catherine Kolkmeier (LMHSC Director) has agreed to be the chair. They plan to meet quarterly and focus on creating protocols that all researchers within the HSC will be held accountable to.

Do you have Items in the Basement "Storage Area"?

This area in the basement has become a 'storage' area even though it was never intended for that purpose. Lately, there have been several water issues, especially with the heavier rains the La Crosse area has recently received. The Consortium office is in the process of cleaning this out. If you are aware of items you may have stored in this area, please take appropriate steps (based on your organization's rules for disposal or storage) to remove them shortly. Items are slowly becoming damaged by the water. (Note: The water problem is being investigated at this time.)

Copy Machine Update

A new copy machine has been ordered to replace the “big” copier on the 4th floor. It should arrive early September. The smaller copy machine will remain as is.

Academic Team

No meeting in August

Next meeting: Monday, September 24 – 12:15 pm in room 2076

Operation Team

No meeting in August

Next meeting: Friday, September 21 – 11:00 am in room 2076

IT/AV Team

No meeting in August
