

# January 2007

## HSC Communication Update

### HSC Management Group

#### AV Contract

The HSC Management Group will be sending out the AV Contract RFP's in mid February. If anyone has any feedback, please contact Joanne Sandvick in the LMHSC office or at sandvick.joan@uwlax.edu.

### Academic Team

#### Academic Team Description

The committee approved the updated team description and it will be forwarded to the HSC Management Group for final approval.

#### Assuring Fair Representation of all Organizations when Difficult Decisions Need to be Made

A draft document was shared and reviewed.

#### UW-Madison Western Campus for Nursing Update (partnering with Gundersen Lutheran)

The nursing faculty will be occupying 4 offices on the 4<sup>th</sup> floor. They currently occupy 4088 and will be adding 4086, 4089 and 4098. They hope to move in the next few weeks.

#### Academic Team Priorities

Michele Thorman asked the Academic Team members to forward any topics they felt were a priority for the Academic Team to discuss. Two items were brought forth:

1. Reviewing the 4<sup>th</sup> floor faculty office policy
2. Discussing potential partnerships among health programs

An exciting and current partnership example is an initiative funded through a "Lesson Study Grant", obtained by Erin Hussey DPT. Together, the UW-L PT program and Western Technical College PTA program will be developing a module on the interactive role between the PT and PTA in the work setting.

### **Operation Team**

#### **Fire Alarms are Fixed!**

Since the fire alarm system is officially fixed, all HSC occupants should treat any future fire alarms as the 'real thing'.

#### **Snow & Ice Removal**

If you see any icy spots or areas around the HSC building in need of snow or ice removal, please call Pete Bemis at 785-8581. Please be precise in your description of the location.

#### **Bathroom Sinks**

It was brought to this committee's attention that several of the bathroom sinks do not work properly. The current faucets have become obsolete and parts are no longer available. New automatic faucets will be installed for those faucets that can no longer be fixed.

### **IT/AV Team**

No meeting in January
