

# June 2009

## HSC Communication Update

### HSC Management Group (HSCMG)

#### **Technology Update**

Good news! During the upcoming year room 2006 will be updated and any equipment that is still functioning will be used to improve 2067 (as applicable). 2002 will also be updated and any usable equipment will be saved to fix other classrooms as problems arise during the year. In addition, 2064 and 2066 will be updated. The plan is to update a few rooms each year, but this of course will all depend on the budget.

New equipment could not be ordered until the start of the new fiscal year (July1) so the updates will happen throughout the next months.

#### **Additional Classroom!**

Due to some remodeling and reconfiguring on the 4<sup>th</sup> floor (thanks to UW-L OT's Department for financing these changes), there is an additional classroom available. Room 4024 will be available as a classroom beginning fall 2009. This room will have wooden tables, which were recycled from one of the remodeled rooms. This classroom can be reserved through the scheduling system.

#### **Student Computer Lab Hours**

Due to budget restraints, the student lab hours have been reduced for the upcoming academic year. The lab will be open Monday – Thursday from 8:00 am – 4:00 pm. The lab will be closed on Fridays. This will be monitored in fall to see if any adjustments need to be made.

#### **HSC Management Group Officers**

The officers have remained the same for the next fiscal year:

Peggy Denton, Chair (UWL)  
Peg Maher, Vice-Chair (UWL)  
Shari Borreson, Recorder (WTC)

Thanks to these representatives for their willingness to serve in this capacity for another year!

#### **Operation and Management Contract Changes**

Please refer to the separate attachment, which was sent via e-mail on July 2.

#### **Academic Team**

No meeting in June

#### **Operation Team**
