

November 2006 HSC Communication Update

HSC Management Group

Classroom/Lab Scheduling

The initial recommendation from the Academic Team was reviewed. The ad hoc committee has been asked to add a 'conflict resolution' statement and to make some other clarifications. Once modified, the Academic Team will review and an updated recommendation will be brought forth to the HSC Mgmt. Group.

HSC Mgmt Group Role Description

The updated description was reviewed and approved.

IT/AV Team Description

The description was reviewed and approved.

Printing Expenses/Supplies in Student Computer Lab

Printing supplies for the student computer lab will be covered through the end of the current fiscal year, ending June 30, 2007. The HSC operating budget will not be budgeting for printing supplies for the next fiscal year, beginning July 1, 2007. Current HSC users of the lab will need to plan for these expenses in their upcoming budget.

Latex Safe Environment Policy

Draft policy is still under review, but nearing completion. Please contact Doreen Olson at 789-4757 with your comments.

Academic Team

Classroom/Lab Scheduling

An updated scheduling policy to include "conflict resolution" was reviewed and approved by the Academic Team.

Team Description

Committee suggestions were made and the description needs to be approved by the Academic Team.

5th Floor Study Area - Computers

There are currently 5 computers that all students have access to in the 5th floor study area. The question was raised as to whether or not departments wanted share in the cost for new computers. The Academic Team decided they would 'table' this discussion until they were able to review the usage study, currently underway, for the 2nd floor student computer lab.

Student Employment Fair

Michele Thorman (UW-L – Physical Therapy) is organizing an employment fair (healthcare organizations will be on campus for healthcare recruiting) on March 22, 2007, from approximately 1-4 pm at the Cartwright Center. Michele would like to include as many health professions as possible. If you are interested, or have any questions, please contact Michele at 785-8466.

Wireless Technology

The installation of wireless technology should be completed mid-December. Joanne will send out a notice once the installation is completed, along with wireless locations.

Operation Team

Team Description

Terry Smith presented an updated draft to the HSC Management Group. The recommend suggestions will be made and then approved at the December HSC Management Group meeting.

Fire Alarm Update

Terry Smith will confirm the working status on the fire alarms. At this point in time, they should not be ignored.

IT/AV Team

No meeting this month
