

October 2009

HSC Communication Update

HSC Misc.

Fire Sprinkler Testing

The annual fire sprinkler testing will be occurring on the UW-L campus and the HSC during November 3-5. The plan is to disable the speakers and strobes to be as inconspicuous as possible. The exact date for the HSC is not known, but will occur sometime during November 3-5.

HSC Management Group (HSCMG)

HSCMG Representative Changes

As of October two changes have occurred with the HSCMG representatives. George Arimond is replacing Ray Abhold (UW-L), and Roseanne Schulz is replacing Mary Lu Gerke (Gundersen Lutheran). Thanks to both Mary Lu and Ray Abhold for their service to the HSCMG.

HSC Space Proposal Process

The HSCMG is in the process of finalizing a space proposal policy to outline the process used for future space requests/changes. Once the policy is finalized, it will be shared with the entire HSC.

Basement "Incubator" Space

As many of you are aware, there is an undeveloped space in the basement which is currently being used as storage. Until recently, this space was reserved as a potential incubator space. Recently the LMHSC Board agreed to release this space to be used for other purposes. In the near future all Consortium partners will receive information on how to submit a proposal if their respective organization is interested in the space. (All remodeling would be the responsibility of the partner.)
