- Assessments determine eligibility for admission
- Dementia
- Developmental disabilities
- Mental health problems
- Physical disabilities
- Terminally ill
- Traumatic brain injury

### Provide/contract services:

#### Basic services include:

- Meals (3 meals a day, snacks and refreshments)
- Laundry (linens and personal)
- Housekeeping (daily tidies and deep cleaning)

#### Specialized services could include, but not limited to:

- Basic wound care
- Early to moderate dementia care
- Full assistance with ADLs (dressing, bathing, grooming etc.)
- Full assistance with ambulation, mobility, wheelchair
- Assistance with respiratory equipment, oxygen, CPAP, nebulizer, etc.
- Hospice
- Incontinence care (bowel, bladder, catheter care)
- Palliative Care
- Specialized diets / modified food textures
- Therapy Services
- Two person transfer/hoyer lift assistance

### Limitations:

- Prior to admission an assessment of
  - Needs
  - Abilities
  - Physical condition
  - Mental condition
- Emergency admission
  - Above assessment conducted within 5 days after admission
- Within 90 days before or 7 days after admission, each person screened for clinically apparent communicable disease, including tuberculosis

- Generally limited on amount of individuals needing more than 3 hours of nursing care per week

If more care is needed, suggest skilled nursing facility.
