

Future Planning Checklist

Health and lifestyle can change with little or no warning. This checklist can help you think about what it will take to maintain your quality of life. Those who care for you will appreciate your efforts to plan ahead. You will be glad you did.

- Think about the level of personal care you need and expect.
- Share your thoughts with trusted family, friends or other representative.
- Explore the cost of care in your home or a nearby facility.
- Have a back-up plan for others to manage your home, care for pets, and access funds for your support.
- Put records, notes, and written plans in a secure place. Tell only those you trust where they are kept.
